“Innovation, R&D excellence and business success in the wider Düsseldorf region”

Dear Sir or Madam,

In cooperation with The Japanese Chamber of Commerce and Industry in Düsseldorf, the City of Heiligenhaus exclusively invite Japanese companies and investors to a site visit to Heiligenhaus, an emerging business hub and nucleus of innovation and R&D excellence – just a stone’s throw away from the capital of North Rhine-Westphalia.

Meet the R&D experts in the field of computer science and mechanical engineering at the Campus Velbert/Heiligenhaus of Bochum University of Applied Science to learn more about future technologies in the field of robotics and AI and discover new potentials for collaboration. You will see how business success is performed and accelerated in the charming city of Heiligenhaus – being connected, with the completion of the new highway A44, to Düsseldorf Airport in less than 10 minutes.

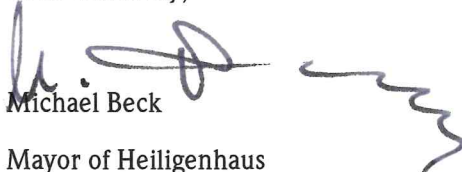

Visit the world market leader in measuring systems IMS Messsysteme GmbH and get an insight how high-precision technologies are developed with a maximum focus on quality. Established in 1980, the company IMS develops and produces isotope, X-ray and optical measuring systems for industrial use in the steel, aluminium and metal industries.

Join our business community and get to know our special offer of highly attractive plot areas for industrial location at the “Innovationspark Heiligenhaus”, a large-scale development site at the A44 in sighting distance of DUS Airport, offering flexible properties of 2.000 - 20.000 m². Now available for investing companies from all different innovative sectors – and maybe ground for your future business success.

Last but not least, extend your network by meeting experts and potential future business partners at our “Get together – Oktoberfest”.

We are very much looking forward to welcoming you in Heiligenhaus!

Yours sincerely,

Michael Beck
Mayor of Heiligenhaus
